Tatvasoft

- Developed web applications using Angular, .NET, and PostgreSQL.
- Designed and optimized PostgreSQL databases with complex SQL queries.
- Created and integrated RESTful APIs using .NET.

Frontend Intern   June 2023 - July 2023

Edunet Foundation-IBM Skill build

- Mastered HTML, CSS, and JavaScript during internship.
- Built responsive web pages with dynamic features.

PROJECTS

Pixelslim-Image Compression Pixel Slim is a React-based web application focused on image compression. It utilizes the React Browser Image Compression Library and jZip to provide users with a seamless experience for optimizing images directly within their browsers. This project showcases my expertise in front-end development and web optimization techniques. [(Try it here)](#)

UI-OneOnic Solutions I led UI design for Onic Solution, crafting intuitive interfaces for user engagement. Translating complex requirements into user-friendly designs, I enhanced platform usability. [(Figma)](#)

AR Filter - Meta I crafted AR filters in Spark Studio (Meta), elevating social media engagement with immersive experiences. This showcases my AR development skills and knack for creating captivating digital interactions. [(Try it here)](#)
